***Election/Restrictions***

Claim 45 is generic and allowable. Accordingly, the restriction requirement as to the encompassed invention is hereby withdrawn and claim 47, directed to the invention of Group III, is no longer withdrawn from consideration since all of the claims to this invention depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 9-15 and 21-39, directed to the invention of Group II-IV remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked invention, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 9-15 and 21-39 to an invention non-elected without traverse. Accordingly, claims 9-15 and 21-39 have been cancelled.
